Coordinator e-mail:	

Each school is allocated the following number of Science/STEM Projects:	
Grades K-2:	1 class project per grade
Grade 3:	4 total projects – at least 2 must be a Group or Class project
Grade 4:	6 total projects – at least 2 must be a Group or Class project
Grade 5:	6 total projects – at least 2 must be a Group or Class project

Classification of projects are as follows:

- Class: a project that an entire class works on and completes together
- Group: a project that is worked on and completed by a small group of students in a class
- Individual: a project that is worked on and completed independently during and/or outside of school
- Team: a project that is worked on and completed independently by 2 students together during and/or outside of school

Class and Group Projects may have up to 2 presenters. Multi-age classes should enter into the higher grade level and is counted in that grade level's entry count
